THE HOME OF CHRYSANTHEMUMS

1926

HANS JEPSEN

MAYWOOD, ILLINOIS

THE HOME OF CHRYSANTHEMUMS

1926

Foreword

It is with great pleasure that I am sending to customers, this, my Fifth Annual Price List of Chrysanthemums. Many thanks are tendered to the many old customers who have shown their approval of the quality of my stock and my methods of serving them by repeated orders.

I am testing many new varieties each season, some do well, and are improvements over older varieties and helps the grower to advance the Chrysanthemum to the honor place it occupies each autumn. There have been Chrysanthemums introduced time and again which were beautiful, but would not pay the commercial grower—those varieties I discard. It is my aim to list nothing but “Bread Winners”. The average grower has no time to experiment.

I aim to send out nothing but stock of the very highest quality, and my customers may be sure that in procuring plants from me they are guaranteed against introducing disease or insect pests into their establishments through infested shipments.

The Chrysanthemum midge is the most serious pest, which troubles the Chrysanthemum has today. When I state that my place is free from the midge, it ought to mean a lot to every grower. When ever the midge takes a hold, I shall quit growing plants for the trade.

My entire place is devoted to growing Chrysanthemums and rooting cuttings. Thousands of plants are planted in the field annually for stock plants. No better cuttings can be gotten anywhere.

Monday and Tuesday are shipping days, Friday and Saturday are for long distance, so shipments do not reach their destinations on the week end.

Considering the quality of the stock sent out, my prices are very moderate.

Special quotations on large quantities. Kindly place your order early, and be sure of your needs for next season.

Mr. Mum Grower:

Do you ever stop to think what we could do if we were all united in one society for the Betterment of the Chrysanthemum and the Grower?
Answer:

Join the American Chrysanthemum Society, and see what will happen. “In union there is strength”.

Yours very truly,
HANS JEPSEN.

ROOTED CUTTINGS OUR SPECIALTY

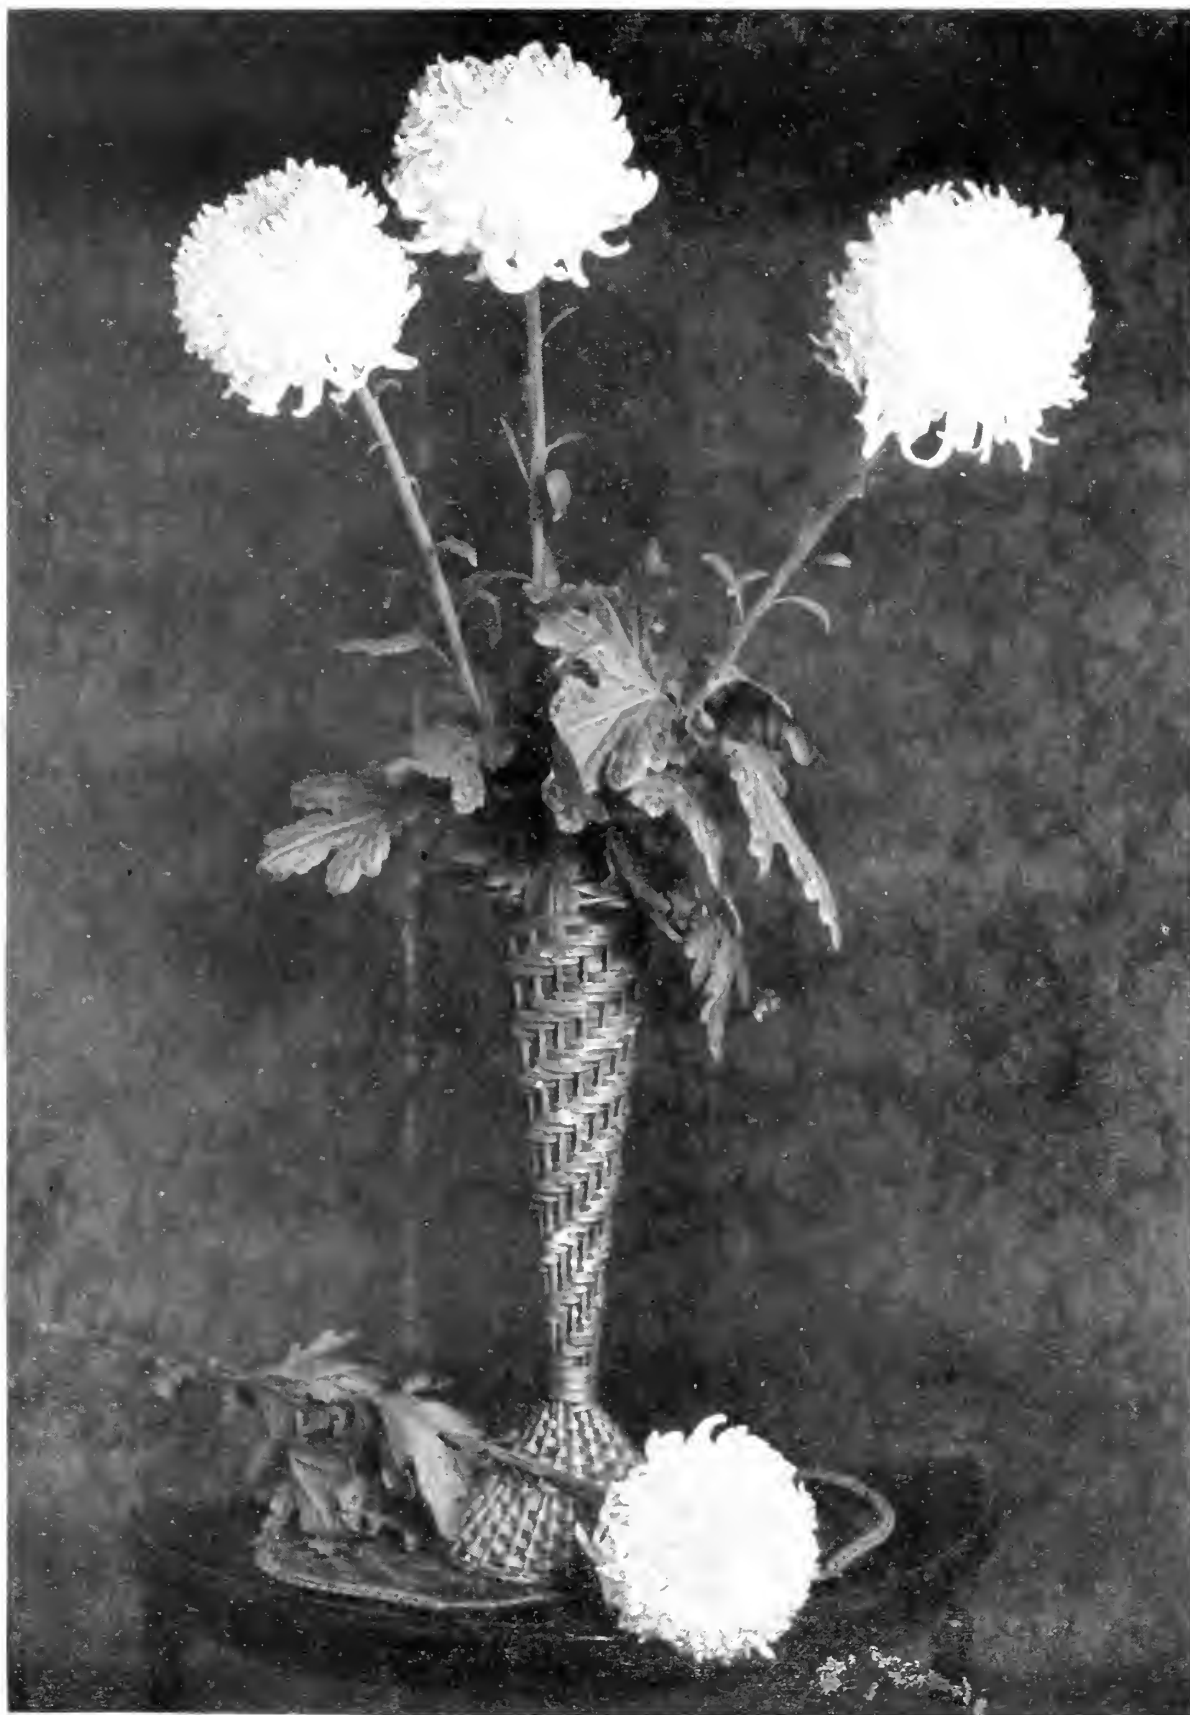

Standard Varieties

White

Betsy Ross

Betsy Ross:	The best white today. Blooms November 1st.	Per Doz.	Per 100	Per 1000
		50c	\$4.00	\$35.00

Varieties Suitable for Pot Culture

Pompons

Lillian Dotty	Mrs. Frank Beu or Wilcox	Mrs. W. E. Buckingham
White Dotty	Red Beu	Maple Leaf
Bronze Dotty	Angelo	Chestnut
Red Dotty	Sunshine	Eugene Langaulet
Ida Skiff	Izola	Graf Von Oriola

Liberty, with its brilliant color and strong growth, makes a wonderful showing in 7 or 8 inch pots.

Large Mums

Golden Glory, one of the best

Dr. Enguehard

Thanksgiving Pink

Miss Nettie L. Parker, has proved a wonderful pot plant, a color which sells on sight.

White and Pink Chieftains are old favorites

White Cap, \$5.50 per 100, \$50.00 per 1000

Yellow Cap, \$5.50 per 100, \$50.00 per 1000

W. N. Lincoln, \$5.50 per 100, \$50.00 per 1000

Kathleen Thompson, \$5.50 per 100, \$50.00 per 1000

The above varieties are merely suggestions. All have proven to be worth while as pot plants. Prices and descriptions to be found on different pages of this catalogue.

Terms of Sale

All shipments will be shipped by American Railway Express Co., unless otherwise requested. I have found express the most satisfactory way of shipping.

CLAIMS FOR DAMAGE

I am very careful with packing; therefore, I am not responsible for delays, frozen or otherwise spoiled shipments. All claims must be entered against the carrier by the buyer.

ALL PACKING FREE OF CHARGE.

MAYWOOD, ILLINOIS

FUMIGATING

Frequently growers ask: "What do you use to kill the moth which is so common in Mums today." Of all the different preparations tried, I have not found any one equal to Hall's Fumigator; it kills and does no damage whatsoever.

Notice

Many growers have asked how to control the Chrysanthemum Midge. There are very many different methods, but I have followed the directions from Farmers' Bulletin No. 1306, U. S. Department of Agriculture and can recommend same very highly. A bulletin every grower should own.
